CONTACTS

The company is based in the industrial area of the port of Ancona. The location is ideal for both deliveries by land or by sea

Fratubi is an Italian Company which has been operating for **40 years** in the world of steel products boasting a wealth of experience in the field.

Through agreements with major pipe mills, foundries and importers around the world, we are able to serve at best small, medium and large companies both at Italian, European and extra-European level.

Our Milestones

✓ **QUALITY:** doing things right; providing products and services free of errors, that work well.

✓ **SPEED:** minimize the time elapsing between the request for products from the customer and its final delivery

✓ **RELIABILITY:** getting things done on time, keeping the delivery promises made and ensuring the quality wished.

✓ **FLEXIBILITY:** modifying or adapting our activities to meet the needs of the moment and react to unexpected circumstances, providing customized solutions

✓ **COST EFFECTIVENESS:** doing things economically, providing goods and services that can be used and / or sold by our customers at a fair price for the market.

“We believe in the ideas that become actions”.

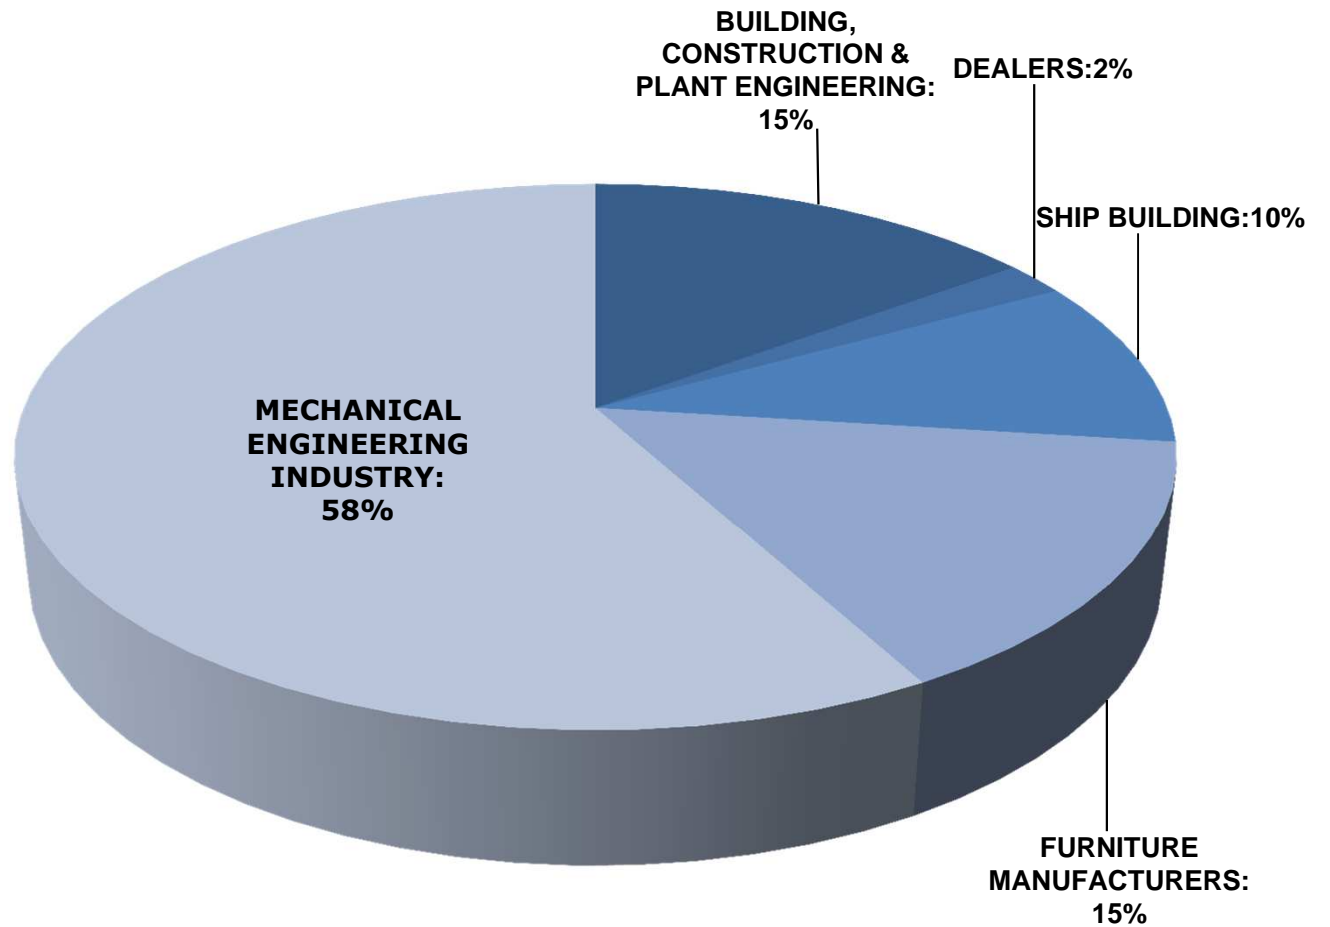

AN IRON ALLIANCE

The satisfaction of our customers is the main reason that makes us grow.

Industries

The **wide range of products** in stock allows us to supply many industries

Clients

Our **clients** and **partners** are **craftsmen, small, medium** and **large enterprises** that continue to choose **FRATUBI** recognizing our availability to collaborate on project development and deliver large and small quantities of materials ready for use.

By paying close attention to their personal needs and willing to make them save their time, we provide our customers with tailor-made services and ready for use goods.

Supply Network Management

The **geographical location** within the regional **district of steel processing companies** allows us to partner with an **established network of subcontractors** that **guarantees the satisfaction of the diverse needs of customers**.

FRATUBI manages and monitors the entire supply network and all the manufacturing stages.

Why Fratubi

- ✓ **We take the responsibility of choosing** the best materials for our customers and we carefully select our suppliers.
- ✓ **We are a one-stop service center in the world of steel products; a unique company** that provides for all the products and services you need.
- ✓ **We manage for our customers the whole supply network;** this means that **you won't lose time looking for various suppliers and subcontractors.**
FRATUBI delivers products which are ready to use.
- ✓ We can provide both **products in stock** and **customized solutions.**
The product **price** and **quality** will be **according to your needs.**
- ✓ We provide **specific consultancy** and **advices in choosing the best material** taking into consideration its final use.

**THE RIGHT MIX OF
COMPETENCE,
PRODUCTS AND
SERVICES TO
FACILITATE THE
WORK OF OUR
CLIENTS.**

Achievements

Working with perseverance, skill and the will to find the best solutions for our customers, we also achieved some good results and aim at always improving:

Mercurio d'Oro Italian award that acknowledges the commitment and entrepreneurial skills, the development and focus on quality and discipline in the management of the business.

In 2017 we celebrate 35 years of activity,
work and passion.
